

*St. Gertrude & St. Francis • Working together for your health*

## *Thanks* to the Rahr Malting Company

St. Francis Regional Medical Center recently benefited from the generosity of the Rahr Malting Company by adding a new piece of life saving state-of-the art technology to its Emergency Department. The Prevue Ultrasound System gives St. Francis emergency medical staff the capability to quickly and more accurately administer to victims of severe trauma the treatment they need by reducing the time required to locate critical veins. Rahr Malting Company's Willie Rahr, President, and Gary Lee, Chief Executive Officer, recently visited St. Francis to see how this lightweight, compact ultrasound system will be used to benefit emergency room patients in those critical first moments of care.

Present for the visit were members of the Saints Healthcare Foundation Board of Directors, St. Francis Emergency Department leadership and staff, Rahr Malting Company staff and a representative from the system's manufacturer, Bard Access Systems.

Left to Right: Jason Harmon, St. Francis; Gary Lee, Chief Executive Officer, Rahr Malting Company; Representative Mike Beard, Saints Healthcare Foundation Board Chair; Greg Jones, St. Francis; Robin Britnell, St. Francis; Dr. Tony Spagnolo, Saints Healthcare Foundation; Willie Rahr, President, Rahr Malting Company; Alan Spillers, Saints Healthcare Foundation; and Joe Moon, Bard Access Systems.

# Donors making a *Difference* at St. Gertrude's

In October of 2012 St. Gertrude's Health & Rehabilitation Center celebrated the grand opening and blessing of the Outdoor Mobility Courtyard. This courtyard provides therapy patients the opportunity to practice many skills including: walking on uneven surfaces, transferring in and

out of the car, hanging laundry, maneuvering steps and even their golf putting. This courtyard was made possible through two donors and the State of Minnesota Performance –Based Incentive Payment Program.

*Thanks* to all the donors who gave to the Rehabilitation Project. Due to your *generosity* we are able to serve over 1,000 patients per year.

# Donors making a *Difference* at St. Francis

The Shakopee Mdewakanton Sioux Community recently made a generous donation to the Saints Healthcare Foundation to provide St. Francis Regional Medical Center with a state-of-the-art piece of needed surgical equipment. This spring Surgeons began using the C-arm Surgical Table to perform urological, kidney and prostate surgeries, including those for prostate cancer.

## *healing* Art Work

Throughout the St. Francis campus you will find various works of healing art, including paintings, sculptures and outdoor healing gardens. One recent additional work of art was a commissioned sculpture by a local artist for the exterior wall of the new Legacy Café facing patient rooms. Through a grant from the Foundation a wall view was transformed with a moving sculpture representing water lilies swaying in the wind. The patients experiencing this view have expressed appreciation for the better environment that is created with the new sculpture.
